Product Overview

Reliable Residential Circuit Protection

This household circuit breaker box is engineered to provide superior electrical safety and overload protection for modern residential systems. The unit features a durable enclosure and robust switching components designed for long-lasting, dependable performance in indoor environments. With compliance to international safety standards, it ensures a secure electrical infrastructure for household circuits.

Technical Specifications

Rated Voltage	230 V
Rated Frequency	50/60Hz
Tripping Current (I _h)	30 mA
Trip Time	0.1 seconds
Rated Short-Circuit Capacity	6000 A
Making/Breaking Capacity (I _m =I _h)	650 A
Safety Standards	IEC61008-1, CE

Model Options

Current Ratings

- C25
- C32
- C40
- 63A
- C100

Key Features

Overload Protection • Test Button Included • Durable Enclosure • Multiple Mounting Points
