Product Overview

High-Efficiency Household Purification

This advanced reverse osmosis water purifier delivers exceptional performance for residential needs. Featuring a patented filter design and high-capacity output, it ensures a constant supply of fresh, clean water without the need for storage tanks. Its smart construction prioritizes safety and user convenience through quick-replacement technology and electrical isolation.

Performance

Daily Purification Capacity

500 gallons

Daily Capacity

Purification Efficiency

Class 1

Maintenance and Design

Filter Technology

FACT® Patented, Compound Filter, Horizontal Placement

Replacement Mechanism

One-press automatic pop-out system

Safety

Safety Standards

- Safe separation of water and electricity
- Tankless design for fresh water supply
