Product Overview

Professional Household Steam Iron

This versatile household steam iron is designed for efficient fabric care, featuring adjustable temperature control suitable for diverse materials like linen, cotton, and delicate synthetics. Equipped with a 120ml water tank and a choice of Teflon, stainless steel, or ceramic soleplates, it offers smooth gliding and consistent steam output. The ergonomic design includes a 360-degree swivel cord guard to ensure tangle-free operation during use.

Technical Specifications

Power Consumption

1200 W
Max Power

Input Voltage	220-240V
Frequency	50 Hz
Water Tank Capacity	120 ml

Features and Controls

Available Soleplate Materials

- Teflon
- Stainless Steel
- Ceramic
