

Household Steam Iron with Temperature Control

This steam iron is a household appliance for ironing clothes. It features a temperature control dial and a non-stick soleplate.

Product Overview

Efficient Household Steam Ironing

The CL-258B steam iron is designed to deliver professional-grade ironing results for a variety of household fabrics. Equipped with a precision temperature control dial, it allows users to safely manage heat levels for materials ranging from delicate synthetics to heavy linens. The combination of a non-stick soleplate and ergonomic handle ensures a comfortable and smooth ironing experience.
