

Household Steam Iron

This steam iron is designed for ironing clothes in a household setting. It features a non-stick soleplate, temperature control, and a water reservoir for steam generation.

Product Overview

Efficient Household Steam Iron

This household steam iron is designed for effective garment care, featuring a durable non-stick soleplate that ensures smooth gliding across various fabrics. Equipped with a user-friendly temperature control dial and a built-in water reservoir, it offers reliable steam generation for removing stubborn wrinkles. With integrated features like spray, burst steam, and self-cleaning capabilities, this iron provides a versatile solution for daily laundry maintenance.

Key Features

Integrated Functions

- Variable Steam Control
- Spray Function
