Product Overview

Professional Household Ultrafiltration System

The CJ-1 DS2 is a robust household ultrafiltration water purifier designed to deliver clean, safe drinking water directly from your tap. Utilizing a high-precision combined filtration system (PP+GAC+UF), it effectively removes impurities down to 0.01µm. This unit is built for reliable, continuous operation in residential environments, ensuring high-quality water output for daily consumption.

Technical Specifications

Water Source	Tap water
Filtration Precision	0.01µm
Filter Configuration	PP, GAC, UF

Performance Metrics

Key Performance Metrics

2.5 L/min

Outflow Rate

0.5 Mpa

Max Water Pressure

Operating Conditions

Operating Temperature	38
