

Household Ventilation Fan

This electrical fan is designed for household ventilation. It features a square frame with a circular fan guard and multiple blades.

Product Overview

Efficient Household Ventilation

This household ventilation fan is designed to provide reliable air circulation and exhaust capabilities for residential spaces. Featuring a durable plastic construction and a classic square-frame design, it integrates seamlessly into various home environments. Its multi-blade configuration ensures effective airflow, making it a practical solution for maintaining fresh air quality in kitchens, bathrooms, or utility rooms.
