

Household Ventilation Fan

This compact fan is engineered for effective household ventilation. It is suitable for wall or ceiling mounting, providing enhanced air circulation in small to medium-sized rooms.

Product Overview

Efficient Household Ventilation

This compact electrical fan is engineered for effective air circulation in small to medium-sized residential spaces. Featuring a durable three-blade design protected by a white wire safety cage, it ensures both performance and operational safety. Its versatile construction allows for easy wall or ceiling mounting, making it an ideal solution for kitchens, bathrooms, or any area requiring improved airflow.
