

Household Washing and Drying Machine

This high-efficiency washing and drying machine is designed for household use. It features multiple wash cycles, adjustable water levels, and a compact design suitable for small spaces, offering both washing and drying capabilities.

Product Overview

Efficiency and Convenience

This household washing and drying machine is designed for maximum efficiency in compact spaces. It combines washing and drying capabilities into one unit, significantly saving time and floor area for busy households. The interface is intuitive, allowing for easy customization of wash cycles and water levels to meet various laundry needs.

Technical Specifications

Model Number	XQB70-H710U
Functionality	Washing, Drying

Features

Key Design Features

- Compact design for small spaces
- Multiple wash cycles
- Adjustable water levels
- User-friendly control panel
- Durable construction
