

Household Water Purification Machine

This water purification machine is designed for household use, providing purified water on demand. It features a multi-stage filtration system to remove impurities and contaminants from tap water, ensuring clean and safe drinking water.

Product Overview

Clean Water Solution

This household water purification machine offers a reliable solution for clean drinking water on demand. Equipped with a multi-stage filtration system, it effectively removes impurities and contaminants from tap water. The unit features an integrated digital display that provides real-time monitoring of both water quality and filter life, ensuring maintenance is simple and efficient.

Technical Specifications

Dimensions	440x190x400mm
Filtration System	Multi-stage Filtration

Features

Smart Features

- Digital water quality monitoring
- Filter status tracking
- Compact design for kitchen integration

Build Quality
