

Household Water Purification System

This water purification system is designed for household use. It utilizes a multi-stage filtration process to eliminate tap water impurities, delivering cleaner and safer drinking water.

Product Overview

Household Water Purification System

This household water purification system is designed to transform civic tap water into cleaner, safer drinking water. Utilizing a multi-stage process, it combines intenerating filters and an active carbon cartridge to effectively remove impurities. Its compact design and 16L capacity make it an ideal solution for small to medium-sized households looking for a reliable, easy-to-maintain water filtration option.
