

Household Water Purifier

This intellectual water purifier is designed for household use, providing clean and purified water. It features a multi-stage filtration system, removing impurities, sediments, and harmful contaminants.

Product Overview

Clean Water for Modern Households

This household water purifier is designed to provide a reliable and safe water source by effectively removing impurities and sediments. Featuring a multi-stage filtration system including active carbon and ultrafiltration technology, it ensures high-quality output suitable for daily use. With its compact and sleek design, it integrates seamlessly into any modern kitchen or living space.

Performance & Capacity

Outflow Flux

250 ml/min

Average Outflow

Gross Volume

15 L

Filtration System

Filtration Stages

- Intenerating filters
- Active carbon cartridge
- Ultrafiltration hydrophilic membrane

Technical Specifications

Applicable Water Source

Civic tap water

Dimensions

280 x 280 x 470 mm
