Overview

Robust Lifting Solution

The HSC type chain hoist is a robust and reliable lifting device engineered for demanding industrial and commercial applications. Constructed with high-strength alloy steel components, it ensures long-lasting performance and precise load control through a smooth and efficient lifting mechanism. This versatile tool is ideal for workshops, warehouses, and construction sites, offering a safe and efficient solution for handling heavy loads.

Key Performance Metrics

Key Performance

10 T

Max Capacity

3 m

Standard Lift

Technical Specifications

Available Capacities	1 Ton, 2 Ton, 3 Ton, 5 Ton, 10 Ton
Standard Lifting Height	3 m
Material	High-strength alloy steel

Safety & Compliance

Certifications

CE • TUV Rheinland • Product Safety

Safety Features

- Reliable braking mechanism
- High-strength durable chain
- Meets international safety standards

Applications

Ideal For

- Industrial lifting tasks
- Commercial workshops
- Warehousing operations
- Construction sites

Design Features

Design Benefits

- Compact design for easy handling
- Easy to install and operate
- Precise load control mechanism
