

# Humidifier Dehumidifier Combination Unit

This combination unit functions as both a humidifier and a dehumidifier. It helps maintain optimal air quality by adding or removing moisture as needed.

## Product Overview

### Versatile Climate Control Solution

The Humidifier Dehumidifier Combination Unit offers a dual-function approach to maintaining optimal indoor air quality. Designed for professional environments, this system seamlessly manages moisture levels to ensure comfort and protect sensitive equipment. Its integrated technology allows for precise control, making it an essential tool for climate-sensitive applications.

### Equipment Type

Climate Control • HVAC • Air Treatment

## Key Metrics

### Operating Capacity

**50 L/day**

Daily Moisture Removal

**5 L**

Water Tank Capacity
