Product Overview

Professional HVAC Ball Valve

This high-quality ball valve is engineered specifically for HVAC&R applications, ensuring reliable on/off control of fluid flow. Featuring robust construction with compression fittings, it provides secure, leak-proof connections for critical heating and cooling systems. Designed for efficiency and ease of use, the valve is operated by a standard lever handle for quick shutoff.

Technical Specifications

Available Sizes (CxC)

Product Code	Specification
F00237	15mm
F00238	22mm
F00239	28mm

Connection Type

Compression (CxC)

Operation

Lever Handle

Suitable Applications

Heating, Ventilation, Air Conditioning, Refrigeration

Manufacturing Standards

Manufacturing Standards

- 20 years of industry manufacturing expertise
- Large scale, cutting-edge production facilities
- Green manufacturing processes
- Guaranteed quality and cost efficiency
