Product Overview

Professional HVAC Ball Valve Solution

This robust ball valve is engineered specifically for HVAC&R applications, providing reliable flow control and long-term durability. Designed with a smooth quarter-turn operation, it allows for easy and precise adjustments in both industrial and commercial settings. Built to resist corrosion, this valve is a dependable component for fluid and gas management systems.

Technical Specifications

Available Sizes (CxC)

- 15mm
- 22mm
- 28mm

Product Codes

Size	Code
15mm	F00237
22mm	F00238
28mm	F00239

Valve Type

Lever Ball Valve CxC

Key Features

Key Benefits

Corrosion Resistant • Quarter-Turn Operation • HVAC&R Compatible • Durable Construction
