

# HVAC Blower Motor for Caterpillar Equipment

This blower motor is designed for HVAC systems in Caterpillar equipment. It provides efficient airflow for optimal climate control, ensuring a comfortable and productive working environment.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance HVAC Blower Motor

This high-performance blower motor is designed to provide efficient and reliable airflow for HVAC systems in heavy-duty equipment. Engineered for durability and precise operation, it ensures optimal climate control and a comfortable cabin environment. Built to meet or exceed OEM standards, this unit offers a direct replacement solution for seamless installation and long-lasting performance in demanding conditions.

## Technical Specifications

### Voltage

**24 V**

Operating Voltage

### Dimensions

Measurement	Imperial	Metric
Outer Diameter	7.9 in	200 mm
Overall Length	7.8 in	199.6 mm

## Logistics & Packaging

### Weight Specifications

- Net Weight: 20.1 kg
- Gross Weight: 22.34 kg

### Packaging Details

6 Pieces per carton; Carton dimensions: 82 x 28 x 54 cm

## Compatibility & Status

OEM Reference

466-7341

Condition

New
