Product Overview

Professional HVAC Check Valve Solution

This high-performance check valve is engineered specifically for HVAC&R fluid systems, ensuring unidirectional flow and critical backflow prevention. Designed with durability in mind, it protects sensitive equipment from potential damage and contamination. The valve is available in multiple configurations to seamlessly integrate into diverse industrial and commercial piping setups.

Technical Specifications

Available Sizes

Product Code	Specification
Y00448	1/2 inch
Y00449	3/4 inch
Y00450	1 inch

Suitable Applications

HVAC, Refrigeration, Fluid Systems, Backflow Prevention

Quality & Standards

Manufacturing Standards

- Green manufacturing processes
- Large-scale production capacity
- Cost-efficient design
- Reliable performance engineering
