

HVAC Pressure Control with Adjustable Range

This pressure control device is designed for HVAC&R applications. It features an adjustable range and a push-to-reset button for reliable performance in monitoring and controlling pressure.

Product Overview

Precision HVAC&R Monitoring

This single pressure control device is engineered for reliable monitoring and management within HVAC and refrigeration systems. It features an adjustable range and a manual push-to-reset function to ensure system safety and operational continuity. Designed for robustness, this unit provides precise control across varying pressure thresholds to prevent short-cycling and maintain optimal system performance.

Technical Specifications

Adjustable Pressure Range

- 10 - 30 PSI
- 15 - 25 PSI
- 20 - 25 PSI

Adjustable Pressure Range (kPa)

- 140 - 410 kPa
- 210 - 340 kPa
- 275 - 340 kPa

Control Features

Push-to-Reset, Short-Cycle Protection, Adjustable Range

Application Compatibility

Suitable Applications

HVAC Systems • Refrigeration • Industrial Pressure Control
