

HVAC&R Solenoid Valve

This solenoid valve is designed for HVAC&R applications, providing precise control of fluid flow. It features a 24V DC coil with a power consumption of 6W, drawing 250mA.

Product Overview

Professional HVAC&R Solenoid Valve

This solenoid valve is engineered for high-performance HVAC&R systems, offering reliable and precise fluid flow control. Built with a 100% duty cycle rating, it ensures consistent operation under continuous use. The unit is designed for durability and ingress protection, making it an ideal component for demanding climate control and refrigeration environments.
