

HVLP Floor-Standing Paint Sprayer

This HVLP floor-standing paint sprayer is designed for a wide range of coating applications. Its high-volume, low-pressure (HVLP) system ensures efficient material transfer and minimizes overspray.

Overview

High-Efficiency HVLP Spray System

This floor-standing paint sprayer utilizes High-Volume, Low-Pressure (HVLP) technology to ensure efficient material transfer while significantly minimizing overspray. Designed for versatility and ease of use, the unit features a flexible hose for improved maneuverability and an ergonomic design for comfortable operation. It is an ideal solution for achieving precise, professional-grade finishes on a wide variety of painting and coating projects.

Technical Specifications

Nozzle Diameters

- 1.8mm
- 2.6mm

Input Power	650 W
Rated Voltage	220-240V
Frequency	50/60Hz
Net Weight	2.2 kg
Cable Length	2 m

Performance Metrics

Key Performance Metrics

800 ml/min

Max Flow Rate

60 din/sec

Max Viscosity

800 ml

Reservoir Capacity

Certifications & Included Accessories

Certifications

VDE Approved

Included Accessories

Viscosity measuring cup, 2.6mm nozzle, Shoulder belt, Cleaning pin
