

Hydraulic Bottle Jack for Heavy Lifting

This heavy-duty hydraulic bottle jack is designed for lifting heavy loads. It features sturdy steel construction, providing strength and durability.

Overview

Heavy-Duty Hydraulic Lifting Solution

This hydraulic bottle jack is engineered for demanding lifting tasks in automotive, construction, and industrial environments. Built with robust steel construction, it provides the strength and durability required for professional-grade heavy load management. Its high-quality pump and ram mechanism ensure reliable performance and precision during operation.

Technical Specifications

Rated Load Capacity

10000 kg
Capacity

Certifications & Standards

CE, A, G, S

Safety & Usage

Operational Safety Guidelines

- Never exceed the jack's rated load capacity.
- Base of jack should always rest on a firm, level surface.
- Never work under the lift load without additional support devices.

Construction

Recommended Applications

Automotive • Construction • Industrial

Material

Heavy-duty steel construction
