

Hydraulic Cable Crimping Tool Set

This hydraulic crimping tool is designed for electrical cable termination. It features a hydraulic mechanism to apply high pressure for secure and reliable crimps on various cable sizes.

Product Overview

Professional Hydraulic Crimping Solution

This hydraulic cable crimping tool set is designed for efficient and reliable electrical cable termination. Featuring a robust hydraulic mechanism, it allows users to apply high pressure with minimal manual effort, ensuring secure crimps every time. The set includes a comprehensive selection of 7 hardened steel dies, making it a versatile tool for various cable sizes and professional electrical applications.

Technical Specifications

Primary Application

Electrical Cable Crimping

Number of Dies

7

Mechanism

Hydraulic

Material

Hardened Steel

Package Contents

What's in the box

- Hydraulic crimping tool
- 7 x Crimping dies
- Durable carrying case
