

Hydraulic Core Drilling Machine with Drill Pipe Cleaning

This hydraulic core drilling machine features components for stable performance and long service life. Mounted on a four-wheel chassis, it allows for rapid and convenient movement and installation.

Product Overview

Robust frame and wheel design ensures stability and maneuverability.

High-Efficiency Hydraulic Drilling and Cleaning System

This versatile hydraulic core drilling machine combines precision drilling with integrated drill pipe cleaning capabilities. Engineered with world-class hydraulic components, the system ensures stable, high-performance operation and extended service life. The unit is mounted on a 4-wheel chassis, allowing for rapid deployment, easy mobility, and convenient installation on various job sites.

Technical Specifications

Machine equipped with a magnetic base for secure attachment to metal surfaces.

| | |
|-----------------------|---------|
| Model Type | OKHZ-15 |
| Max Drilling Diameter | 150 mm |
| Max Drilling Depth | 400 mm |

Features

Integrated system designed for cleaning and maintaining drill pipes.

Supported Drilling Methods

- Carbide bit drilling
- Diamond bit drilling

Performance Features

Stable Hydraulic Performance, 4-Wheel Mobile Chassis, Versatile Drilling Methods, Rapid Drilling Speed, Easy Operation
