

Hydraulic Cylinder for Special Vehicles

This heavy-duty hydraulic cylinder is designed for special vehicles. It provides reliable and powerful linear actuation for demanding applications.

Special vehicles Hydraulic Cylinder

Overview

High-Performance Hydraulic Solutions

This hydraulic cylinder is engineered specifically for demanding applications in special vehicles, providing reliable and powerful linear actuation. Built to rigorous standards, it features advanced quality control processes to ensure long-lasting performance and consistent movement. Its versatile design accommodates a wide range of operating conditions, making it an ideal choice for complex mobile equipment.

Performance Metrics

Working Pressure Range

21 MPa

Min Pressure

28 MPa

Max Pressure

Working Temperature

-30°C to 100°C

Dimensions

Dimensional Capability

Parameter	Range
Bore Size	20mm - 400mm
Stroke Length	100mm - 12000mm

Quality & Standards

Compliance

GB/T19001-2008, ISO9001:2008

Product Compatibility

Supported Series

- HSG
- Y-GH
- JB2162
- JB/ZQ4395
- CD/CG250
- C25
- D25

Production Capacity

Manufacturing Output

200000 units/year
