Overview

Professional Hydraulic Puller Solution

This 23-piece hydraulic gear and bearing puller set is engineered for the efficient removal of gears, bearings, and other press-fit components. Featuring a powerful hydraulic ram with a 7.5 to 10-ton capacity, it provides controlled force for demanding tasks in agricultural, garage, and industrial environments. The comprehensive kit includes interchangeable arms and separators, all housed in a durable carrying case for professional portability.

Components

Kit Components

- Hydraulic ram
- Puller arms
- Extension rods
- Bearing separators
- Tommy bar
- Heavy-duty carrying case

Applications

Industrial Applications

Agricultural Machinery, Automotive Repair, Industrial Maintenance, Mechanical Engineering, Garage Use

Features

Key Features

- Powerful and controlled pulling force
- Versatile interchangeable components
- Adjustable jaws for various component sizes
- Robust frame for maximum stability
- Durable construction for long-lasting performance
