

Hydraulic Hose Crimping Machine 4-51mm

This hydraulic hose crimping machine is designed for crimping hoses with diameters from 4mm to 51mm. It features a hydraulic system that provides consistent crimping force for reliable hose connections.

Overview

High-Performance Hose Crimping Solution

The JK350 hydraulic hose crimping machine is engineered for precision and reliability, capable of handling hose internal sizes ranging from 4mm to 51mm. With a powerful 3500KN crimping force and a robust 3KW motor, it delivers consistent results for demanding industrial hose assembly tasks. Designed for versatility, this machine supports both 380V and 220V power configurations to suit various workshop environments.

Performance Metrics

Crimping Force

3500 KN
Crimping Force

350 Ton
Crimping Force

Hose Capacity

4-51mm

Technical Specifications

Machine Specifications

Parameter	Value
Motor Power	3KW
Oil Pressure	31.5MPa
Max Opening	+25mm
Weight (Without Oil)	280kg
Dimensions (L*W*H)	680*440*1000mm

Power Configurations

- Standard: 380V, 3ph
- Optional: 220V

Compliance & Support

Certifications

CE

Warranty & Service

1 Year Warranty, Overseas Engineering Support

General Information

Origin & Condition

- Condition: New
- Place of Origin: Hunan, China
