Product Overview

Professional Hydraulic Log Splitters

These robust hydraulic log splitters are designed for efficient timber processing, compatible with a wide range of agricultural tractors. Available in two powerful configurations, they feature heavy-duty steel construction and 3-point linkage for seamless integration with existing equipment. Built for high performance and durability, these units are essential tools for professional forestry and landscaping applications.

Technical Specifications

Model	LSP-18T	LSP-22T
Suite to	15-55hp Tractors	20-60hp Tractors
3-Point Linkage	Cat. I or II	Cat. I or II
Length	470mm	470mm
Width	1300mm	1300mm
Height	1940mm	1940mm
Weight	190KGS	200KGS
Operation	Hydraulic or PTO	Hydraulic or PTO
Working Position	YES	YES
RAM	18 Tonne	22 Tonne

Dimensional and compatibility overview for LSP series models.

Model Comparison

Specification	LSP-18T	LSP-22T
Suitable Tractor HP	15-55hp	20-60hp
Splitting Force (RAM)	18 Tonne	22 Tonne
Weight	190kg	200kg

Mechanical Dimensions

470 mm

Length

1300 mm

Width

1940 mm

Height

Operating Features

3-Point Linkage Compatibility

Cat. I • Cat. II

Operating Method

Hydraulic, PTO Driven

Working Position Confirmation

Yes
