

Hydraulic Metal Sheet Cutting and Bending Machine

This hydraulic shearing machine is designed for cutting and fold-bending metal sheets. It features a robust construction with a control panel for operation and adjustment.

Product Overview

Versatile Metal Processing Solution

This hydraulic machine is engineered for precision cutting and fold-bending of metal sheets. Featuring a robust construction with a durable blue and gray finish, it is designed for demanding metalworking environments. The system includes an integrated control panel for easy operation and a front support table with adjustable stops to ensure consistent, accurate results for every project.

Technical Specifications

Construction Finish

Blue • Gray

Machine Type

Hydraulic Metal Sheet Cutting and Bending Machine

Key Features

Hydraulic Operation, Cutting Capability, Fold-Bending Capability, Adjustable Stops, Front Support Table
