

Hydraulic Motorcycle and ATV Lift

This hydraulic motorcycle and ATV lift features foot pedal operation. It is constructed from durable steel and includes a safety locking mechanism.

Product Overview

Professional Hydraulic Lift Solution

This hydraulic lift is expertly engineered to provide a stable and reliable platform for servicing motorcycles and ATVs. Featuring a robust steel construction, it is designed for heavy-duty workshop environments where precision and safety are paramount. The unit incorporates a user-friendly foot pedal operation and a secure safety locking mechanism to ensure stable height maintenance during maintenance tasks.

Performance Specifications

Rated Capacity

1500 Lb
Max Load

Lifting Height Range	4-1/8 to 17 inches
