

Hydraulic Power Steering Rack for BMW E39

This hydraulic power steering rack is designed for BMW E39 models. It provides smooth and responsive steering assistance.

Product Overview

Hydraulic Power Steering Rack

This hydraulic power steering rack is specifically engineered for BMW E39 models to provide precise and responsive steering control. The unit features a durable silver-finished metal housing and integrated rubber bellows designed to protect internal components from dust and debris. Equipped with standard hydraulic line fittings, it ensures reliable performance and fluid-driven assistance under various driving conditions.
