

Hydraulic Pump Barrel Assembly

This complete pump barrel assembly is a key component in hydraulic systems. It is designed for high-pressure applications and precise fluid control.

Product Overview

High-Precision Hydraulic Barrel Assembly

This hydraulic pump barrel assembly is engineered for high-pressure fluid control applications in demanding marine environments. Designed with precision-machined components and robust seals, it ensures reliable performance and fluid integrity under intense operational conditions. The assembly serves as a critical spare part for a wide range of both 2-stroke and 4-stroke engine systems.

Compatibility

2-Stroke Engine Compatibility

- MAN B&W S26MC
- L35MC
- S35MC
- L42MC
- S42MC
- S46MC-C
- L50MC
- S50MC/-C
- L60MC
- S60MC/-C
- L70MC
- S70MC
- L80MC
- S80MC
- K80MC/-C

4-Stroke Engine Compatibility

- MAN B&W L16/24
- L20/27
- L23/30
- L23/30A
- L28/32
- L28/32A
- L28/32H

Technical Specifications

Application

Marine Engine, Hydraulic System, High-Pressure, Precision Fluid Control
