

# Hydraulic Toe Jack for Heavy Lifting

This hydraulic toe jack utilizes a toe part for lifting heavy loads. It features a compact, portable design and is constructed from high-strength steel for durability in various industrial applications.

## Product Overview

### Professional Hydraulic Toe Jack

Designed for heavy-duty lifting in industrial environments, this hydraulic toe jack features a compact structure that allows for easy access to low-clearance areas. With a dual-lifting capability, it offers versatility for machinery installation, maintenance, and repair tasks. Its robust construction ensures reliable performance for loads ranging from 2.5 tons up to 100 tons.

## Technical Specifications

### Lifting Capacity Range

**2.5 tons**

Minimum Capacity

**100 tons**

Maximum Capacity

### Toe vs Head Capacity Ratio

Toe capacity is 50% of the head capacity

### Suitable Applications

Machinery Installation, Industrial Maintenance, Equipment Repair, Low-Clearance Lifting

## Operational Details

### Usage Guidelines

- Designed for narrow and small areas
- Can lift from either toe or head positions
- Suitable for single or multiple jack configurations

### Multi-Unit Compatibility

Yes
