Product Overview

Professional Hydraulic Toe Jack

This hydraulic toe jack is engineered for heavy-duty lifting in industrial, construction, and shipyard environments. Its robust steel construction ensures durability, while the low-profile toe design allows for easy access in confined spaces. Equipped with a safety overload valve and a spring-assisted return mechanism, this tool provides a safe, reliable, and controlled lifting solution for machinery moving and installation.

Technical Specifications

Maximum Capacity

10 TON

Max Capacity

Weight Details

Metric	Value
Gross Weight	25 KGS
Net Weight	23 KGS

HS Code

84254200

Features & Construction

Key Features

- Low-profile toe design for confined spaces
- Robust steel construction
- Safety overload valve
- Spring-assisted return for controlled lowering
- Corrosion-resistant surface coating

Applications

Machinery Moving, Shipyards, Bridge Building, Plant Construction, Industrial Maintenance
