Overview

Enhanced Visibility Solution

This fog lamp is precision-engineered specifically for the 2019 Elantra model. It is designed to significantly improve driver visibility during adverse weather conditions, including heavy fog, rain, and snow. Built with robust materials and a clear lens, this component ensures durability against the elements while providing a focused beam of light for enhanced road safety.

Technical Details

Key Features

- Direct fit design
- Clear lens construction
- Includes mounting brackets
- Meets or exceeds OEM specifications

Part Number	92301/2-F2500
Compatible Year	2019
Optimized For	Fog, Rain, Snow
