

Hyundai Excavator Side Cutter

This side cutter is designed for Hyundai excavators to provide enhanced protection. Its durable construction ensures optimal performance and minimizes downtime in heavy-duty tasks.

Product Overview

Heavy-Duty Excavator Protection

This durable side cutter and shroud component is engineered to provide superior protection and cutting performance for heavy machinery. Designed for demanding industrial environments, including construction and mining, it ensures optimal equipment operation and reduced downtime. The component is built for precise fitment and long-lasting reliability in challenging ground conditions.

Product Features

Available Component Types

Side Cutter, Side Protector, Wing Shroud, Vertical Shroud

Application

Suitable Machinery

Excavators, Loaders
