

Ice Cream Display Freezer with Glass Door

This display freezer is designed for showcasing ice cream. It features a transparent glass door for clear viewing, multiple shelves for organized storage, and integrated LED lighting.

Overview

Compact Display Freezer

This professional-grade display freezer is designed for optimal product visibility and temperature control, making it an ideal choice for retail environments like convenience stores and cafes. With a 70L capacity and a temperature range of -18°C to -25°C, it ensures ice cream and frozen goods are kept in perfect condition. The unit features a durable spray-painted metal exterior, an aluminum interior liner, and a heated glass door to prevent condensation, ensuring your products remain clearly visible to customers.
