

Idler Sprocket for 1" Pitch 16B1 Chain

This idler sprocket is designed for use with 1" pitch 16B1 chains. It features 12 teeth and a 20mm bore, making it suitable for a variety of industrial applications.

Product Overview

Industrial Idler Sprocket

This idler sprocket is engineered for reliable performance in 1-inch pitch 16B1 chain systems. Featuring a 12-tooth configuration and a 20mm bore, it is built to withstand demanding industrial environments. It serves as a critical component for maintaining proper chain tension in conveyor systems, power transmission setups, and various automated machinery.

Technical Specifications

Chain Pitch	1 inch
Chain Standard	16B1
Number of Teeth	12
Bore Diameter	20 mm

Applications

Suitable Applications	Conveyor Systems, Power Transmission, Industrial Machinery
