

IE2 High Efficiency Three-Phase Motor

This high-efficiency three-phase induction motor is designed for industrial applications. It is built to meet IE2 efficiency standards, ensuring reduced energy consumption and lower operating costs.

Product Overview

High-Efficiency Industrial Motor

This IE2 high-efficiency three-phase induction motor is engineered for reliability and energy savings in demanding industrial environments. Featuring a durable aluminum housing with optimized cooling fins, it ensures efficient heat dissipation and a long service life. It is an ideal power solution for a wide range of machinery including pumps, fans, compressors, and conveyor systems.

Electrical Specifications

Efficiency Standard

IE2

Rated Voltage	380 V
Frequency	50 Hz
Duty Cycle	S1 (Continuous)
Insulation Class	Class F

Mechanical & Design

Housing Material	Aluminum
Protection Rating	IP55

Applications

Typical Applications	Pumps, Fans, Compressors, Conveyors
