

# IEC C13 Power Connector

This IEC C13 connector is commonly used for connecting power supplies to devices such as computers, monitors, and printers. It features a three-pin configuration designed for grounded connections.

## Product Overview

### Professional IEC C13 Connector

The XR-501 is a high-quality IEC C13 power connector designed for reliable performance in professional electronic environments. Featuring a standard three-pin configuration, it ensures secure, grounded power delivery for devices such as computers, monitors, and printers. With broad international approvals and flexible voltage/current ratings, this connector is a versatile solution for global power cord assemblies.

## Technical Specifications

### Rated Current Options

- 10A
- 13A
- 15A

### Rated Voltage Options

- 125V
- 250V

<b>Model Number</b>	XR-501
<b>Standard</b>	IEC60320-C13

## Compliance & Quality

<b>Certifications</b>	UL, CUL, VDE, SAA, CCC, ASTA
-----------------------	------------------------------

## Logistics

<b>Minimum Order Quantity</b>	1000 pieces
<b>Payment Terms</b>	T/T, L/C at sight
<b>Port of Loading</b>	Shunde, Guangzhou, Shenzhen
