

IEC C13 to CEE 7/16 Power Cord

This is an IEC C13 to European CEE 7/16 power cord used to connect devices to a wall outlet. It is typically used for low-power devices such as laptop power adapters, printers, and other small electronics, providing a safe and reliable power connection for European electrical outlets.

Product Overview

Professional Power Connectivity

This IEC C13 to CEE 7/16 power cord is designed to provide a secure and reliable energy bridge for a wide range of office and home electronics. The assembly features a robust three-pin female C13 connector for device-side attachment and a standard two-pin male CEE 7/16 plug for European wall outlets. It is the ideal solution for connecting laptop power bricks, printers, and various small-format electronics safely.

Technical Specifications

Connector Pin Configuration

Connector Side	Pin Count
IEC C13 (Device)	3
CEE 7/16 (Wall)	2

Typical Applications

- Laptop Power Adapters
- Printers
- Small Electronics

Connector Configuration

IEC C13, CEE 7/16
