

# IEC C15 Right-Angle Power Connector

This right-angle IEC C15 connector is suitable for various electric appliances. It is designed to connect power supplies to devices such as computers, servers, and other electronic equipment.

## Product Overview

### IEC C15 Right-Angle Connector

The IEC C15 is a high-performance power connector designed for demanding electronic equipment, including servers and computing hardware. Featuring a space-saving right-angle design, it facilitates efficient cable management in tight environments. Built for durability and reliability, this connector supports high-temperature applications and meets rigorous international safety standards.

## Electrical Specifications

### Rated Current

**10 A**

Rated Current

### Rated Voltage

250 V

## Compliance and Standards

### Approvals

VDE

### Standards

IEC60320-C15

## Physical Properties

### Model Number

XR-501B2

### Available Colors

Customizable upon request

## Logistics and Terms

### Payment Terms

- T/T
- L/C at sight

### Minimum Order Quantity

1000 pieces

### Port of Loading

Shunde, Guangzhou, Shenzhen
