

# IEC C19 High-Current Connector

This IEC C19 connector is designed for high-current applications. It is commonly used to supply power to servers, high-power workstations, and other equipment requiring a robust and reliable power connection.

## Overview

### High-Performance IEC C19 Connector

The IEC C19 connector is engineered for high-current applications, making it an essential component for demanding environments such as data centers, server racks, and high-power workstations. Built to adhere to international standards, this connector ensures a robust and reliable power connection for critical equipment. Its durable construction and versatile electrical ratings make it a dependable choice for professional power distribution needs.

## Electrical Specifications

### Rated Current

**10 A**

Min Current

**20 A**

Max Current

### Rated Voltage

- 125V
- 250V

## Compliance & Standards

### Certifications

UL, CUL, VDE, SAA, CCC, ASTA, ENEC

### Standard

IEC60320-1

## Ordering Information

### Payment Terms

- T/T
- L/C at sight

### Port of Loading

- Shunde
- Guangzhou
- Shenzhen

### Minimum Order Quantity

1000 pieces
