

Illuminated Bathroom Mirror with Defogger

This LED bathroom mirror provides bright and energy-efficient illumination for grooming. It features integrated touch controls for adjusting brightness and color temperature and includes a defogging function.

Product Overview

Modern Illuminated Bathroom Mirror

This frameless bathroom mirror combines modern functionality with a minimalist aesthetic, featuring side-lit double-sided glow for soft, ambient illumination. Designed for contemporary spaces, it includes energy-efficient LED lighting and a durable, corrosion-resistant build. With integrated touch controls and optional smart features like defoggers and Bluetooth speakers, it offers a sophisticated solution for any bathroom upgrade.
