

Illuminated Ceiling Fan with Five Blades

This ceiling fan provides both cooling and illumination. It features five blades to ensure optimal air circulation and an integrated light kit with multiple bell-shaped shades.

Product Overview

Elegant Cooling and Illumination

This ceiling fan is designed to provide both efficient air circulation and ambient lighting for residential spaces. Featuring five intricately designed blades, it ensures optimal airflow in rooms like living areas, bedrooms, or dining rooms. The integrated light kit with bell-shaped shades adds a decorative touch, while the robust downrod mounting system ensures secure installation and long-term reliability.

Technical Specifications

Number of Blades	5
Mounting System	Downrod

Energy Efficiency

Energy Savings Analysis

P Number	Rated Power (W)	Electricity Charge/Day
1P	1200	7.68
2P	2200	14.08
3P	3100	19.84

Usage Benefits

- Produces wind chill effect for improved comfort
- Reduces air conditioner load
- Potential energy savings of 40% or more
- Clockwise rotation for summer cooling
