

Illuminated Emergency Exit Sign - Fire No Entry

This illuminated sign is designed to prevent entry into hazardous areas during emergencies. The bilingual text ensures clear communication of the warning message.

Overview

High-Visibility Emergency Warning System

This illuminated emergency exit sign is designed to provide clear, immediate warning instructions during fire emergencies. Featuring bilingual text in both Chinese and English, it ensures universal understanding for international safety compliance. The high-contrast red illumination is specifically engineered to remain visible in hazardous conditions, effectively preventing entry into dangerous areas.
