

Illuminated Push Button with Red Lens

This illuminated push button is designed for industrial control applications. It features a red lens and robust construction for reliable performance.

Product Overview

Industrial Illuminated Push Button

This high-performance illuminated push button is engineered for demanding industrial control environments. Featuring a high-visibility red lens, it ensures clear status indication for machinery and industrial equipment operators. The modular construction facilitates seamless installation and allows for extensive customization with various contact blocks for specific operational needs.

Technical Specifications

Product Series	XB5-B
Lens Color	Red
Mounting Type	Panel Mount

Certifications & Compliance

Compliance Markers	ABV-6, 10M, Inc. Cont. Eq.
