

Immersion Blender with Stainless Steel Shaft

This immersion blender features an ergonomic handle for comfortable grip and easy operation. It has a stainless steel blending shaft for durability and efficient blending.

Product Overview

Professional Immersion Blender

This high-performance immersion blender features a durable stainless steel shaft designed for efficient blending, pureeing, and mixing tasks. Its ergonomic handle ensures a comfortable grip and easy operation during extended use, making it an ideal tool for commercial kitchens. The compact design allows for convenient storage without sacrificing power or versatility.

Technical Specifications

Performance Features

- Variable speed settings for precision control
- Durable construction for heavy-duty use
- Efficient blending and pureeing capability

Suitable Applications

Soups • Smoothies • Pureeing • Blending

Material Construction

Stainless Steel Shaft, Ergonomic Handle

Design & Ergonomics

Design Highlights

Compact design optimized for easy storage and maneuverability.
