

Immersion Suit Neoprene Maritime Safety

This immersion suit is constructed from 5mm thick neoprene. It includes an integrated buoyancy pillow, eliminating the need for a separate lifejacket.

Product Overview

Professional Maritime Thermal Protection

This immersion suit is engineered for critical maritime safety, providing essential thermal protection and buoyancy in emergency situations. Constructed from high-grade waterproof neoprene, it ensures full-body coverage including integrated boots and gloves to minimize heat loss. Designed for reliability on ships and offshore platforms, it features high-visibility elements and secure closures for rapid deployment.

Technical Specifications

Visibility & Safety

Reflective Tape • High Visibility • Water Ingress Protection

Material	Waterproof Neoprene
Key Design Features	Integrated Boots, Integrated Gloves, Waterproof Zipper, Snug Hood

Usage & Application

Suitable Environments

- Commercial Shipping
- Offshore Platforms
- Maritime Emergency Response
