Product Overview

High-Performance Impact Protection

These 13-gauge HPPE anti-collision gloves are engineered for superior hand protection in high-risk environments. Featuring advanced TPR padding on the back of the hand and fingers, they effectively absorb and dissipate impact forces. The breathable, highly-flexible nitrile coating ensures a secure grip, while the cut-resistant shell maintains necessary dexterity for precision tasks.

Technical Specifications

Safety Standards

EN ISO 21420:2020 • EN 388:2016+A1:2018: 4X42DP • CE Certified

Available Sizes

- S
- M
- L
- XL
- 2XL

Material Composition

13 Gauge HPPE, Thermoplastic Rubber (TPR), Nitrile Coating

Key Features

Impact Protection	Yes
Grip Technology	Highly-flexible Nitrile coating
Color	Heather Gray
